Dear Prospective Sponsor:

The University of Regina Society of Automotive Engineers (Cougar Racing) is a student-run organization which exists to provide students with the opportunity to learn and apply the skills that will make them tomorrow's innovators in industry.

Cougar Racing prepares students for industry by developing professionalism, teamwork, communication, and program management skills through the design, development, and construction of various vehicles, and entry of these vehicles in international competitions. This program is important in that it provides students with practical, hands-on experience in the skills required by industry.

It is the generous contributions that make this all possible. I invite you to read the attached information and discover how your sponsorship will contribute to excellence in technical education at the University of Regina. On behalf of Cougar Racing and the entire Engineering Faculty, we thank you for your interest in our students and their projects.

Sincerely,

Paitoon Tontiwachwuthikul
Dean of Engineering
